C-profile bar

For the mounting of the water level gauge we recommend our stainless steel mounting material listed below.

Mounting material from stainless steel

Art.-No.	product description	quantity
31-BMS	Mounting set, stainless steel, contains screw M6x14, threaded plate and washer	
31-BCP	C-profile bare, stainless steel, per 1 meter	
31-RP	Reproduction costs for water level gauges	1

Please note that level gauges are manufactured individually on customer order. Therefore, level gauges are excluded from exchange or return. The delivery time for level gauges made of aluminium stove enamelled is approx. 4-5 weeks after clarification of all technical details.
